Café Collection

Style with Strength

# Endurance

Jazz combines vibrant tones of red with stark, black blocks of colour to produce a bold and impactful, abstract design. Co-ordinating chairs can be mixed and matched, with red seats and backrests, black seats and backrests, or a combination of the two. Jazz furniture has a lightweight, high grade, powder coated aluminium frame. The angular design and black frame colour add to the stylish and modern look of this collection. Surfaces are sculptured from Endurance material and overhang the frames, giving them maximum protection against scratching.

# Endurance

Soul's 3D design of metallic diagonals rising up from a black background produces a very eye-catching and sophisticated design. Co-ordinating chairs can be mixed and matched, with silver seats and backrests, black seats and backrests, or a combination of the two. Soul furniture has a lightweight, high grade, powder coated aluminium frame. The angular design and black frame colour add to the stylish and modern look of this collection. Surfaces are sculptured from Endurance material and overhang the frames, giving them maximum protection against scratching.

Blues is a subtle combination of harmonic tones and shades, creating a tasteful and sophisticated geometric design that is easy on the eye. Co-ordinating chairs can be mixed and matched, with blue seats and backrests, black seats and backrests, or a combination of the two. Blues furniture has a lightweight, high grade, powder coated aluminium frame. The angular design and black frame colour add to the stylish and modern look of this collection. Surfaces are sculptured from Endurance material and overhang the frames, giving them maximum protection against scratching.

# Endurance

Funk combines vibrant sweeping amber and silver shapes on a black background with stunning effect, especially when co-ordinated with chairs of varying colours. Chairs can be mixed and matched, with amber seats and backrests, black seats and backrests, or a combination of the two. Funk furniture has a lightweight, high grade, powder coated aluminium frame. The angular design and black frame colour add to the stylish and modern look of this collection. Surfaces are sculptured from Endurance material and overhang the frames, giving them maximum protection against scratching.

Mono offers a variety of furniture items in a combination of black and textured silver surfaces with co-ordinating or contrasting frames. Simply changing a surface colour and combining it with a different frame colour - black or silver - can have a stunning effect. Mono dining tables and chairs have a lightweight, high grade, powder coated aluminium frame. The angular design gives the range a stylish and modern look. Surfaces are sculptured from Endurance material and overhang the frames, giving them maximum protection against scratching.

A unique aspect of the Café Collection is its chairs, which can be mixed and matched in any combination with stunning effects. You can achieve a “subtle and subdued”, “lively and vibrant” or “stylish and sophisticated” scheme. In fact, whatever look you want, because you design your own chairs, co-ordinating and contrasting seat and backrest colours, and then matching them with any table in the Café Collection range. There are 13 chair colour combinations and 16 table designs.....so endless design possibilities !

# Endurance

Endurance is an innovation in outdoor furniture, manufactured from highly durable and moisture-resistant panels using a special process.

The panels are made from “kraft paper” which is impregnated with resin, dried and compacted at high pressure into panels. This results in a product that, when used to make outdoor furniture.....

- is resistant to all weather
- doesn't rot, fade or discolour in the sun
- won't stain or easily scratch
- is not burned by cigarettes
- is graffiti cleanable with solvents
- doesn't twist or warp in heat
- doesn't crack in the frost
- is extremely hard and durable
- resists impacts and doesn't bend
- has no splinters or sharp edges
- doesn't need any maintenance

As a result, Endurance furniture has a **30 Year Life** and a **further 20 Year Life Expectancy** (certified in independent tests).

The outer most layer of the Endurance panel is the surface texture or design. This can be bright solid colours, creative finishes and designer effects. All furniture edges are chamfered and smooth – no splinters or jagged edges.

Endurance is ideal for commercial use - its extensive life reduces massively the ongoing costs of maintenance and refurbishment for businesses. Consequently, our furniture has been supplied to pub chains, theme parks, sporting venues and schools across the country.

# Endurance

## Surfaces

Endurance Café Collection table surfaces are of 12mm thickness and chair surfaces 6mm, making them lightweight and easy to lift and store away.

## Frames

Endurance Café Collection furniture is manufactured in the UK. The frames are either galvanised steel or high grade aluminium, both of which are powder coated and available in black or silver. The Mono Table & Bench Set has a brushed stainless steel frame.
